

Introduction to Machine Vision Workshop

Fresno, CA – October 9, 2018

Come learn how to improve product quality, decrease production costs, and increase manufacturing throughput using Cognex's vision technologies. Join vision specialists from Cognex in a hands-on workshop where you will learn about Insight smart camera technology and the basics of setting up vision applications using Insight Explorer's built in Emulator.

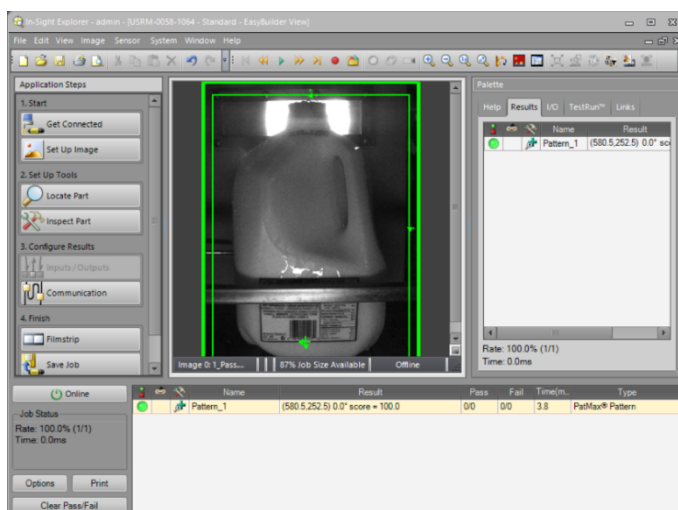

The focus will be on the Easybuilder development environment within Insight, designed to quickly deploy vision systems. We will go through several real-world applications using Easybuilder. No programming knowledge is required!

Attendees, please bring a laptop. If you do not have administrator rights to your PC please inform us in advance.

When: October 9, 2018 8:30 AM – 4:00 PM

Where: EMS Fresno

Reserve now using the attached form,
space is limited!

COGNEX
